TRAINING TIPS

You will need to train your dog to walk forward beside you, to turn, and to stop to get ready for pet day.

Coming to your Call

When teaching your dog to come to you, teach it with treats, each time you call it to come give it another treat and give it lots of pats.

Leading

Put a dog collar on your dog's neck and attach a dog lead. When you want your dog to move forwards with you start walking and pull softly on the lead, when your dog takes a step forward give it a treat. Repeat doing this until your dog understands what you are trying to do.

Stopping

When you want to stop your dog gently pull on the lead rope and remember to practice standing still as well. Make sure you don't yank on the lead too hard as this will scare your dog and will hurt its neck.

Tying Up

You can also teach your dog how to tie up. Just tie the lead around a post, when your dog stands there quietly, reward it with a treat or take it away for a walk or back to its pen.

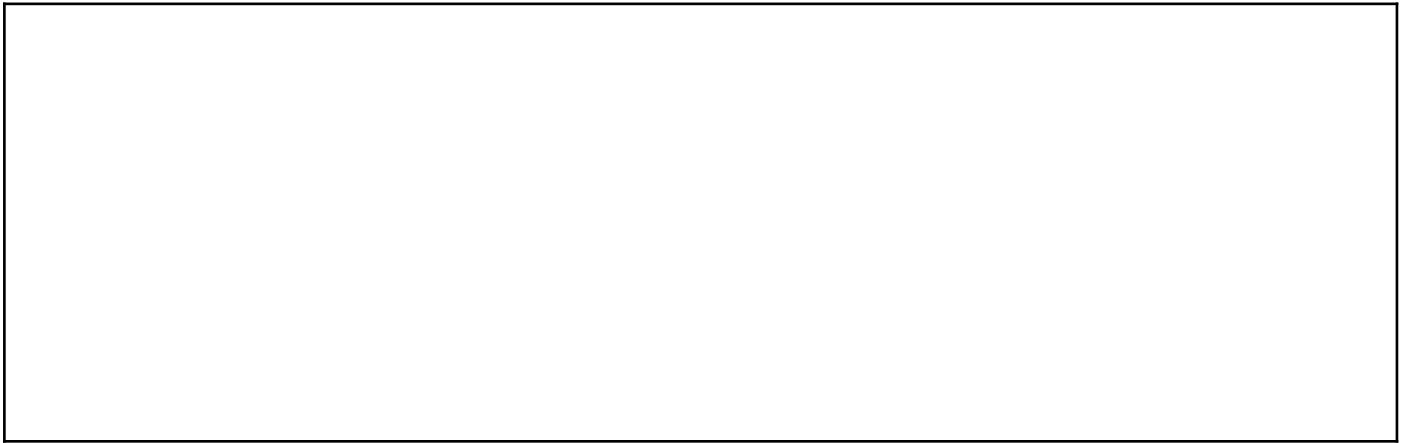

Keep it Fun

Remember to keep training fun, praise and pat your dog lots and give it treats when it does things right, keep training short so you both don't get tired and bored.
